## **Work Experience**

### **NEXUS4change (Internship)**

October 2019-Present

*Web Application Architect/Engineer*

Location: Perrysburg, OH

- You can find me towards the bottom of their website - <https://nexus4change.com/team>
- I collaborate with a team about their needs and translate that into working software
- Most of my work is done remotely, utilizing video chats & instant messaging

### **Senecio Corporation**

January 2020-Present

*Software Applications Engineer*

Location: Bowling Green, OH

- I've learned new development technologies which align with the needs of a project
- I collaborate with the supervisor on their vision for an app, along with the team of engineers to delegate tasks amongst ourselves

## **Class Project**

### **Locate2Learn**

Spring 2019

- Our team of four built software for a client to make learning more fun and engaging
- iOS, Android, Web, API, Database – The iOS app queries the database via the API

## **Personal Projects**

### **Yardmaster Application & Website**

Summer 2019

- Website to help promote and run Olson The Yardmaster – [olsontheyardmaster.com](http://olsontheyardmaster.com)
- iOS App for more efficient & professional billing along with lawn managing capabilities

### **Custom Personal Computer**

December 2017

- Built a custom PC completely on my own
- Two RX 580 GPU's for cryptocurrency mining
